

Who is Salem Anesthesia?

Thank you for choosing Salem Anesthesia to participate in your Anesthesia care. Our goal is to deliver excellent Anesthesia care at a value to you the patient. Since 1996, our Anesthesia team has worked to be clinically excellent practitioners who maintain compassion in every aspect of your patient care. At Salem Anesthesia, we understand the very personal relationships we have with our patients, and we strive to honor and protect this daily.

Your Care Today

Salem Anesthesia Providers will deliver your Anesthesia care during your surgery today. Your Anesthesia Providers are a team of **Certified Registered Nurse Anesthetists** and **Anesthesiologists** who work in collaboration with your surgeon to provide a safe and effective anesthetic.

The Anesthesia Claim Process

As a Patient courtesy, Salem Anesthesia files the claim for your Anesthesia services directly with your insurance carrier*. The Anesthesia claim will be processed according to your **in-network benefits**. Charges for the Anesthesia care you receive today are based on the time you are under the care of an Anesthesia Provider. This means your exact charge cannot be determined until your surgery is complete.

***Blue Cross Blue Shield (BCBS) Patient Note** - BCBS payments for Anesthesia services are mailed directly to you. You are required to send this payment to Salem's office. Please call us directly to discuss questions about BCBS or this process.

For assistance with questions about:

- Your Anesthesia Care
- Anesthesia Care Charges
- Processing the Insurance Claim
